

The aim of this worksheet is for you to be able to name the different parts of a fish by the end of it!

If you are unsure of the answers try and work them out for yourself by observing the fish in your home aquarium.

Think about your own body parts, what do you use to hear, taste, touch and smell, what body parts do you need to move around?

Can you label and colour the correct parts of the fish below using the words provided?

Caudal Fin (colour me blue)

Kidney (colour me green)

Dorsal Fin (colour me yellow)

Swim Bladder (colour me blue)

Esophagus (colour me yellow)

Operculum (colour me brown)

Gills (colour me red)

Heart (colour me pink)

Pelvic Fin (colour me green)

Liver (colour me brown)

Stomach (colour me green)

Intestine (colour me dark blue)

No Number-

--- Lateral Line System (black)

<< Scales (purple)
